

GA2300 Automatic Height Restrictors

SPECIFICATION

Maximum Span

10.0m

Drive Unit

3 phase motor and wormed gearbox with rack and pinion final drive.

Cycles

100% Duty Cycle

Safety System

All our powered gates are equipped with class leading safety systems as standard. Flush fitted limit detectors and canted in safety edges at the drive post to minimise trapping hazards. You won't find a safer gate.

Robust Construction

Designed to provide a strong visual deterrent against vehicle attack and to provide a high level of resistance to theft of caravans and other vehicles and plant over the allowed height.

HD Silent Rollers

8 wheeled roller provide silent operation while carrying up to 1200kg.

Opening/Closing Time

5 seconds per metre (adjustable)

Safety

6 x CAT 3 safety edges, dual height photocells, Emergency Stop button and flashing beacon/sounder.

Power Supply

230VAC, 50Hz, 16amp

Gate Drive

Reliable and almost silent in operation. Powered by an inverter driven motor and gearbox, providing 3 phase controllability with single phase economy.

PLC

Plug and Play! Feature a Feig control system with inverter, all pre-wired and factory tested ready to be connected to your mains power supply.
