

GA5000 Tracked Sliding Gate

SPECIFICATION

Maximum Span

18.0m

Drive Unit

3 phase motor and wormed gearbox with rack and pinion final drive

Cycles

100% Duty Cycle

PLC

Features a Feig control system with inverter, all pre-wired and factory tested. Ready to be plugged into your mains power supply.

Gate Drive

Reliable and almost silent in operation. Powered via an inverter driven motor and gearbox, providing 3 phase controllability with single phase economy.

Gate Infills

Wide range of gate infills are available, from a standard vertical tube, to weldmesh, palisade and timber cladding. Alternatively, we can provide sheet steel with your logo cut out.

Maximum Height

5.0m depending upon span

Opening/Closing Time

4 seconds per metre (adjustable)

Safety

First class safety systems. 6 x Cat 3 edges, dual height photocells, Emergency Stop button and a flashing beacon/sounder.

Power Supply

230VAC, 50Hz, 16amp

Gate Design

Decorative infills are available - price upon request.
