

GA8400 Hydraulic Road Blocker

SPECIFICATION

Width Available

2.0m to 5.0m in 0.5m increments

Drive Unit

Remote hydraulic pack with 3 phase motor (inverter driven)

Cover Plates

8mm Durbar (mechanically fixed)

Maximum Axle Weight

12 tonnes

Operating Time

1.5 - 5 seconds

Finish

Rising element: Epoxy primed & polyester powder coated.
Lower frame: Galvanised

Blocker Drive

Hydraulic system with inverter driven 3 phase pump.

Construction

All welded steel RHS

Rising Element Height

340mm, 500mm and 800mm

Cycles

100% duty rating

Power Supply

230VAC, 50Hz, 10amp

Control System

PLC with inverter, all pre wired and factory tested ready for connection to your mains power supply.
